

WATER ISSUES IN ONTARIO
Georgian Triangle Life-Long Learning

Dr. Romila Verma

romilav@rogers.com

Instructor, School of the Environment and Geography & Program in Planning,
University of Toronto
Founder, Water Speaks, Founding Director, Trans Africa Pipeline

WEEK 5: FEBRUARY 7, 2020

Hydrometereological and Biological Events

The weather, water and disease related disasters especially in the context of climate change, will be examined through the lens of drought, flooding, contaminants and health impacts. Case-study of Grand River flood management will be discussed.
